

## AINA SYAFIQAH BINTI ROMAIZEE

No. +60 17-368 6449

E-mail ainaromaizee@gmail.com

### PROFILE

Computer Science diploma student skilled in design, networking, and programming. Experienced with Android Studio, Cisco Packet Tracer, and Ubuntu for mobile apps, data communication, and operating systems. Adaptable team player interested in software development, AI, and data analytics.

- 03 August 2026 – 23 October 2026 (12 Weeks)

### ACADEMIC PROJECTS

#### leapWords Mobile Application

Designed a multi-screen mobile application interface using Flutter. Developed an outsourcing application with camera feature, save database, and REST API.

#### Subnetted Network Topology

Implemented a subnetted Class B network across four departments, Personnel, Sales, HQ, Customer Service and Logistics. Verified cross-subnet connectivity via Cisco Packet Tracer.

#### Result Management System Website

Developed a full-stack Laravel and PHP web application complete CRUD functionality. Applying user-centered design principles including responsive layout, consistent theming, and intuitive navigation.

#### Enterprise LAN Network

Deployed a Cisco Layer 3 multi-VLAN routing, OSPF redundancy, and RSTP loop prevention. Secured the system using extended ACLs, SSH management, and port security with sticky MAC locking.

#### E-Commerce Web Design

Designed a responsive multi-page e-commerce interface in Figma, emphasizing usability and aesthetics. Applied UI/UX principles with consistent colors, typography, intuitive navigation, and clear call-to-action buttons.
